

Education

Security and efficiency for
educational institutions

The educational landscape faces paramount challenges, such as misplaced ID/Access Cards, hostile situations and diverse safety & security needs.

With IDCUBE's AI-Powered 'CLOUD/ON Prem' physical access control system (PACS) institutions can seamlessly manage the safety & security protocols, automate ID issuance & streamline emergency management. Elevate your institution's brand value with our mobile credentials and sustainable approach, transforming to a carbon-neutral campus.

BENEFITS

Simplification

Streamline your campus with an open platform, eliminating complex functionalities and reducing the workforce, making it easier to manage and operate

Elevate Security

Shift to improved and preventive campus security with advanced AI analytics and actionable security Insights

Brand Enhancement

Enhance your institute's brand value by making it a modern, tech-forward campus with a secure, welcoming environment, automated processes, and eco-conscious initiatives

Boost Productivity

Reduce administrative overhead time from 2 weeks to just 2 minutes with our efficient automation and integration

Green Campus

Reduce energy consumption and help your institute meet environmental standards for a future-forward Green Campus

Cost Savings

Reduce your access control infrastructure & operations cost by 80% with mobile credentials and the cloud platform

FEATURES

Campus Entry Automation

Students, staff, and vehicle entrance automation via mobile credentials, biometric systems or RFID.

Optimize Classroom Access

Enable automated student access to classrooms as per their enrolled courses.

Recreational Facility Access

Enable controlled access to campus recreational facilities such as gyms or sports complexes, ensuring optimum utilization.

Restricted Hostels/Dormitories Access

Specialized rule-based access to dormitories and other residential facilities using wireless or no-tour latch locks, ensuring safety and privacy.

Emergency Lockdown & Evacuation

Integrate PACS with emergency protocols to swiftly manage and respond to critical situations like intrusion & fire, ensuring the safety of students and staff.

Professor/Faculty Cabin Control

Self-controlled access to faculty cabins with ease, right at your fingertips.

Campus Access Management

Empower administrators with precise role customization to efficiently manage multiple departments, colleges and institutes across the campus.

Fort Knox Security

Ensure data security compliance with ISO 27001 & 27018, SOC2, GDPR, PCI-DSS, HIPAA, and NIST-SP 800-53.

Visitor & Campus Tour Management

Enable Visitor pre-registration, implement approval workflows and manage walk-ins with comprehensive in-built Visitor Management.

Fest/Event Access

Facilitate temporary streamlined access for attendees to campus events or festivals, managing entry efficiently and eliminating unwanted footfall.

Identity Matrix

Streamline user roles and access for faculty, students, administration & maintenance staff, and visitors.

Technology Collaboration

Integrate with the student information system, cafeteria POS, vending machine, and key management to enhance efficiency without compromising data privacy.

**We built the World's first AI-powered operating system
for physical Access Control — Access360.**

The OS provides comprehensive support for a wide range of physical identities, encompassing legacy credentials like smartcards and biometrics, as well as virtual ones such as mobile credentials and QR codes. This enables secure and agile authentication of diverse entities across various facilities.
