

Multi-family Housing

Seamless security &
effortless access for
multi-family living

Access control systems at residential multi-family housing face challenges due to demographic differences and casual environments.

Access360 cloud-hosted solution combines access control, mobile credentials, and visitor management in a user-friendly **GreenID Mobile App** that caters to all demographics, **balancing security and convenience** while providing a welcoming experience to residents & visitors.

BENEFITS

Convenient Visitor Access

Unlock doors from anywhere or issue passes with a single click for gatherings, couriers, visitors, and tours

Elevate Security

Shift from reactive to proactive and preventive with advanced AI analytics and comprehensive end-to-end encryption measures

Brand Enhancement

Enhance your community's brand perception with a secure, welcoming environment, automated processes, and eco-conscious initiatives

Boost Productivity

With automation and integration, reduce your residents' onboarding time from 2 weeks to 2 minutes

Green Initiative

Promote sustainability, reduce energy consumption, and meet environmental standards for a future-forward multi-family housing

Cost Savings

Reduce your access control operations cost by 80% with mobile credentials and the cloud platform

FEATURES

Identity Matrix

Streamline user roles and access for maintenance staff, residents, facility management officials, and visitors.

AI Sentinel

Optimize resources using footfall heat maps, behavioral analysis, and anomaly detection for proactive security measures.

Safety First

Enable effective emergency response with single-click lockdown, evacuation modes, and real-time headcount.

Manage Evolving Identities

Seamlessly handle physical, biological, and virtual identities, including smart cards, key fobs, biometrics, and virtual wallet technologies.

Remote Unlocking

The GreenID mobile app allows easy remote unlocking, ensuring controlled access from anywhere - anytime.

Visitor QR Passes

Create and send digital passes for easy access, catering to family, friends, or potential home buyers.

Fort Knox Security

Ensure data security compliance with ISO 27001 & 27018, SOC2, GDPR, PCI-DSS, HIPAA, and NIST-SP 800-53.

Integration Powerhouse

Integrate with property and community management software for efficient service delivery and controlled access to authorized personnel.

Leasing Office Access

Implement first swipe unlock and scheduled relocking of doors for leasing, maintenance, or admin offices.

Time & Attendance

Ensure accurate time-tracking for facility maintenance, security staff, and seamless payroll integration.

Smooth and Secure Vehicle Access

Manage vehicle access with UHF, RFID key fobs, and ANPR for authorized entry and exit.

Simplify Amenities Access

Define restrictions based on time, occupancy, or membership status with a few clicks.

We built the World's first AI-powered operating system for physical Access Control — Access360.

The OS provides comprehensive support for a wide range of physical identities, encompassing legacy credentials like smartcards and biometrics, as well as virtual ones such as mobile credentials and QR codes. This enables secure and agile authentication of diverse entities across various facilities.
